

Feature Story

Evergreeners Lynn & Mark from Westcliff, Colorado just completed a year-long journey in a 34' trawler navigating America's Great Loop. They started and finished their adventure in Florida. Kayaks and collapsible bicycles allowed them maximum freedom to explore anything of interest they saw along the way. Their support team were Evergreen members all along the route who went out of their way to express gracious hospitality in hosting and helping in any way they could. That's the spirit!
