**COMFORTABLE HOSTING**

**In case you were wondering...**  
 Yes, you are able to host and travel. However, since this is a club of unique individuals, The Evergreen Club is not making any blanket statement of whether or not you can/should

host or travel. Each host and guest must decide and set the rules for his/her own home.

If you are not comfortable hosting, please download this photo (see button below) and post it as the first picture in your photos on your member Profile. This will notify other members at-a-glance that you're not ready to host yet. This eliminates unwanted hosting requests and will save everyone lots of time.

As always, communication is key.
